2008 Junior High Power – The Shooting Year

The Junior high power season usually begins in February with an orientation meeting at the Club's training facility in Creedmoor. The purpose of this meeting is to welcome new prospective members and their parents, reestablish communication with returning team members, and to discuss the upcoming year.

The principle areas to be covered during this meeting are the year's match schedule, the Club's expectations of team members, cost associated with the program, the National Matches, and any questions by the attendees. Other items will address the issuance of equipment, and its care and cleaning, as well as practice opportunities not listed on the match schedule.

The match schedule presented at the first team meeting pretty much controls the team's activities through the season. Normally team members are expected to commit to a minimum of two Saturdays a month February through September. In most cases the practice and match held at Sir Walter's range will be over about 1:00 pm, whereas the matches held at other venues i.e. Butner, are usually an all day affair. Furthermore, some matches have Sunday activities that team members may participate in.

In order for the individuals on the team to realize their potential, and in order for the team to realize its goals, it is imperative for the Junior's to make every effort to participate in the competitions on the schedule, and for the parents to insure that their children are able to participate. **The Most Successful Juniors are Those Who Have Supportive Parents.**
